

MegaRail s twin H4b · W7 · B

Technical Specifications (EN 1317 norm)

Containment Level	H4
Normalised working width [m]	2.48
Class of normalised working width	W7
Normalized dynamic deflection [m]	1.45
Normalised vehicle intrusion [m]	-
ASI	B
Class of vehicle intrusion IV	-
Construction height [m]	0.9
Construction width [m]	1.98
Post spacing [m]	2.0 c/c
Tested system foundation / installation	Driven
Testing length [m]	68m
Weight per m [kg/m]	73.2 kg/lm
Characteristic material of the system	S235JR
